

Modular Gabion Systems

Project

Location:

Little White Oaks Bayou @ Moody Park,
Houston, TX

Specifier:

Harris County Flood Control District

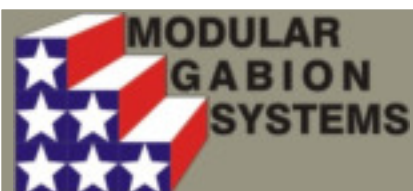

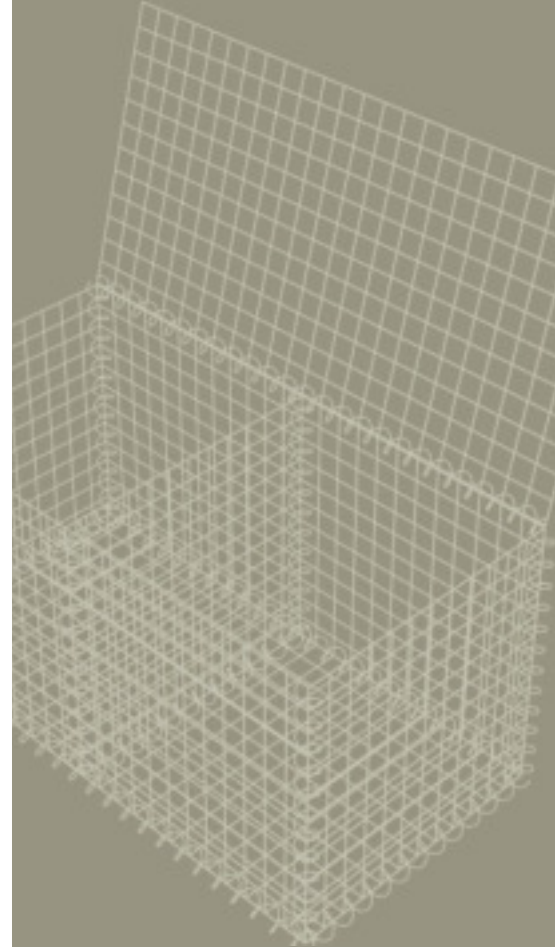

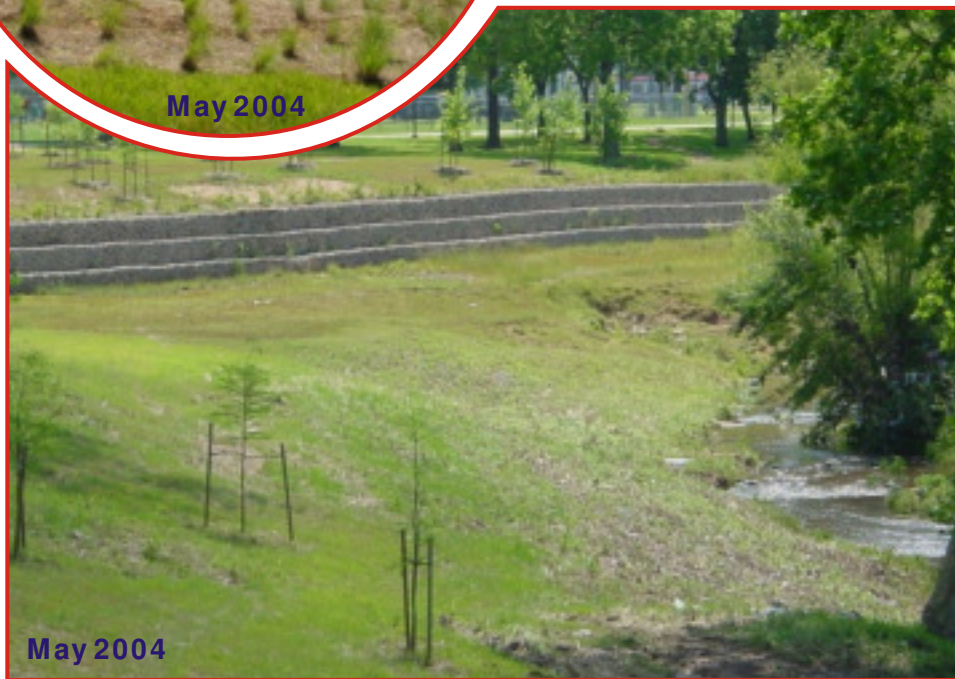

Contractor:

Excalibur Construction, Inc.

Project Date:

May 2002

PVC coated Modular Gabion Systems gabions and Eco-Mattresses are used to lessen the slope and protect the badly eroded bank of Little White Oaks Bayou in a popular Houston park. The use of Eco-mattresses assured a rapid revegetation after construction. Today, the bank which was once too eroded to be enjoyed by park visitors, provides valuable green space. Once too steep to be maintained by Parks Department equipment, the banks are easily accessible by mowers and grounds equipment.
